Nonstandard Growth Analysis and its Applications 2017

March 14-16, 2017

The workshop on nonlinear partial differential problems of elliptic and parabolic type with nonstandard growth, organized in the framework of the Simons Semester Crossfields PDEs, will take place in the

room 321 at IM PAN, Śniadeckich 8, Warsaw

Main speakers: Alexandre Almeida (University of Aveiro)
Miroslav Bulíček (Charles University)
Lars Diening (University of Osnabrück)
Peter Hästö (University of Oulu/University of Turku)
Agnieszka Kałamajska (University of Warsaw)
Josef Málek (Charles University)
Agnieszka Świerczewska-Gwiazda (University of Warsaw)

Web page: <http://crossfields.impan.pl/growth.html>

Organizing committee: Tomasz Adamowicz, Piotr Gwiazda, Erika Maringová, Iwona Skrzypczak
